Easily connect up to three internet-ready AV devices on just one wall socket

- Perfect for connecting your Internet TV, game console and Blu-ray Live player to the web
- Smoothly stream movies over your network to your Internet TV and Game Console

Features

PRE-SET SECURITY
The security is enabled by default and you can easily change the network key using the security push button.

EASY START
For each device you wish to connect, simply plug the adapter into a wall socket and plug the pre-wired cable into a network port.

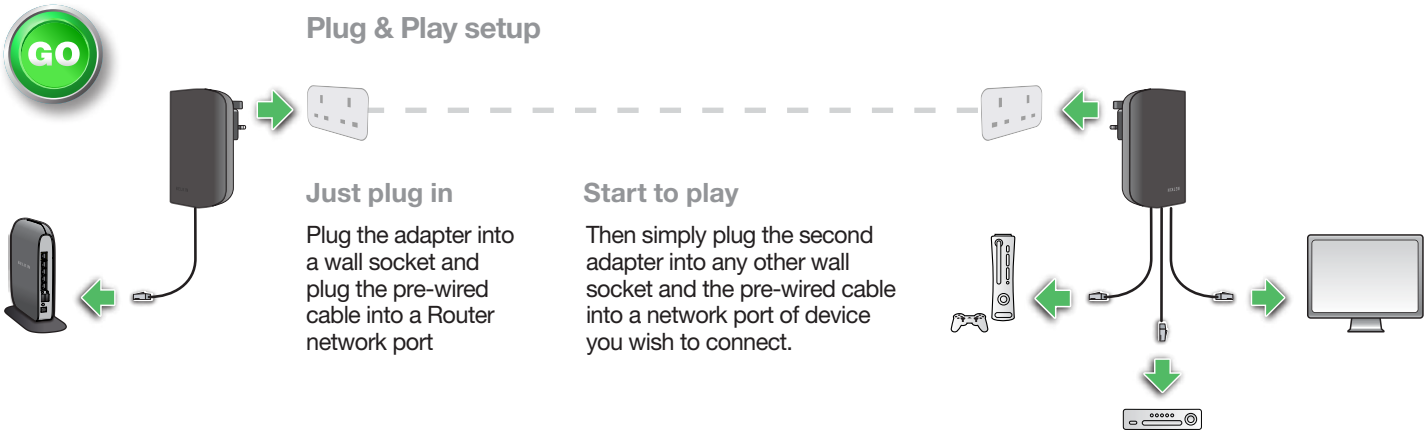
High Speed Wired Networking

200 Mbps

BELKIN

Share POWERLINE AV 3 PORT

With the Belkin Share Powerline AV Dual Pack you can easily connect up to three devices to the Internet from just one wall socket, anywhere in your home. Setting it up is as easy as changing a light bulb. No need for extra internet cables, you simply use your home's existing electrical wiring. Just plug it in and start to play, watch and browse.



Plug & Play setup

Just plug in

Plug the adapter into a wall socket and plug the pre-wired cable into a Router network port

Start to play

Then simply plug the second adapter into any other wall socket and the pre-wired cable into a network port of device you wish to connect.

What you need to create a network with Powerline
